It’s better here than at the nursing home

Silicon Valley Independent Living Center helps ease the financial burden for those with disabilities who want to stay in their homes.

Music of Monterey Bay:
Aquarium project monitors whales’ songs, aids conservationists

GENETIC BRAIN CONDITION

By Helen Santoro

SENS LANTOS • A from the deck of the Monterey Bay Aquarium Research Institute, miles of glistening water extend in every direction through patches of fog to the horizon. In the distance, the ocean appears to be calm. But beneath the ocean’s calm surface is a cacophony of sounds waiting to be heard. Capturing the sounds of the ocean in real time was once impossible. But with BEARAD’s deployment of an underwater microphone array, scientists now have the ability to listen to the acoustics of the ocean for the first time. 20000 - PAGE 2 20000 - PAGE 2 MUSIC OF MONTEREY BAY 20000 - PAGE 2 MUSIC OF MONTEREY BAY

By John Westlind

Ferdinand Mangaoang was enjoying retirement after a long career as a draftsman, indulging his passion for cooking and spending time with his wife, children and grandchildren. He would love to do it all for three more years up a mild hill that didn’t seem hard for him to walk, but it seemed to his wife.

But on June 30, 2016, dusk was striking. His wife, Cecilia, found him moaning and moving to get up. Their son and daughter-in-law were on the way to the hospital. Ferdinand, 62, survived the heart attack. But the damage was profound, and his prospects for returning home were daunting. Af-

Sounds

The hydrophone sits deep within Monterey Bay through the season, holding miles of fish and 3,000 feet deep. The project is designed to better understand marine life within a 550-mile radius.

If you listen long enough, you can hear rain, Humphreys's Opera, earthgreens, yellows and reds.

Researchers are now recording the marine sounds of data to help marine biologists and conservationists further understand the impact of sound pollution on marine life.

“The hydrophone captures sounds over a period of time, which scientists believe may help them to learn more about the movements and behavior of marine animals,” said John Ryan, a graduate student at MBARI.

The exciting clinical results of UriVarx™ users show why UriVarx™ has been so effective in the published clinical trials.

• Urinary leakage—these UriVarx™ users say it has made a lasting difference in their lives: “It’s so easy to use, and it works brilliantly,” said one 71-year-old woman.

Multi-award-winning actor Robert De Niro is a spokesperson for UriVarx™. Mr. De Niro believes in our product and its ability to provide a better quality of life for those suffering from bladder control issues.

They also experienced a dramatic decrease in your incidence of xerostomia, such as dry mouth.

The active ingredients in UriVarx™ come from a patented formula. It is both safe and100% effective, and also no known serious side effects is having. With daily use, it leads to a better quality of life.

Day and Night Protection

Research shows that the ingredients target the muscles of the bladder, helping to control those muscles and prevent urinary leakage. UriVarx™ is also the only ingredient to be approved by the FDA for both day and night.

A special hotline number for UriVarx™ is also available in over 200 languages. UriVarx™ users can now enjoy better bladder control at home, work, or school. UriVarx™ can now be purchased at your local pharmacy, or online at Amazon.com or at UriVarx.com.

Exciting Results From UriVarx™ Users

“UriVarx™ has helped me to have a normal life again. I can now do things I used to avoid because of bladder control issues,” said a UriVarx™ user.

Overall, the UriVarx™ group experienced:

• 56% Reduction in Incontinence

• 66% Reduction in Stress Incontinence

• 46% Reduction in Urge Incontinence

• 58% Reduction in Urinary Leakage

• 50% Reduction in Room Trips

• 30% Reduction in Embarrassing Accidents

The exciting clinical results of UriVarx™ users show why UriVarx™ has been so effective in the published clinical trials.

The participants in the study. It’s no coincidence that thousands of UriVarx™ users report their symptoms have been resolved.

The Hydrophone is an underwater listening device within Monterey Bay’s ecosystem. It is operated with a floating research platform, with a 30-mile-long cable connecting it to an underwater lab.

New Patented Pill For Bladder Control Makes Store Debut

Studies show a new pill may be effective enough to replace adult diapers at stores leading one major retailer to now carry it; users report reductions in urgency, frequency, leaking, and nighttime incontinence.

New Patented Pill To Replace Diapers Makes Debut: UriVarx™ can now be purchased in 12 stores in the United States.

UriVarx™ is a new patented pill that provides a better quality of life for those suffering from bladder control issues.

Urinary leakage occurs when the bladder muscles are too weak, and can cause embarrassing accidents.
